# Swisscom Sharespace

The new Social Intranet and Collaboration Software based on Microsoft SharePoint.

With Swisscom Sharespace you can discover a whole new dimension of internal communication. Not only are your employees always up-to-date, they can also play an active part themselves with comments, entries and likes. Information flows smoothly between individuals and departments, and your company's ability to innovate increases. Swisscom Sharespace offers you ready-to-use workspaces and makes company-wide collaboration easier.

This add-in requires following applications: SharePoint 2013 or later SharePoint online

## Why Swisscom Sharespace?

- ✓ No expensive and risky software development. Short time to market.
- ✓ Fosters innovation thanks to knowledge sharing & better communication.
- ✓ Lowers costs thanks to flexible overall solution based on SharePoint.
- ✓ Increases productivity of teams thanks to easy to use collaboration tools.
- ✓ Saves IT-resources thanks to attractive workspace templates.
- ✓ Increases attractiveness as an employer thanks to a modern digital workplace.
